

## **Charleville Business EDGE Follow-up, May 5<sup>th</sup> 2014**

Bush AgriBusiness has held a number of Business EDGE follow up workshops last year and earlier this year around Queensland, in conjunction with Meat & Livestock Australia.

The feedback from these follow-up workshops has been excellent with people saying it both helped refresh them on the content of the Business EDGE and helped motivate and equip them to go home and make changes to their business.

Ian McLean will be presenting a follow up workshop in Charleville on the morning of Monday May 5. It will be a half day workshop that will cover:

- Review the key principles from the Business EDGE workshop
- Practical steps to generate your own management reports and key measures, including;
  - Herd information and performance
  - Chart of Accounts
  - Balance Sheet
  - Income Statement
  - Cashflow Statement
- Budgeting
- Group discussion

It will be an interactive session with lots of time for group discussion and questions. Some of the feedback from workshops held earlier this year include;

*“Reinforced business concepts going forward. Lots of practical ideas for improvement”*

*“Makes me put it back on the to-do list”*

*“It reinforced what I had previously learnt and I now feel confident to go the next step with working out information”*

The day is free to attend and is open to people who may not have attended a Business EDGE, so if you've friends or others in your business that may be interested, please bring them along.

Registration is essential for catering & organisation so please complete the attached form and e-mail back. If you've any questions please contact Joanne Herley on 0427 118 699 or via email on [admin@babusiness.com.au](mailto:admin@babusiness.com.au).
