

Feed and Breed *with purpose* - CATTLE

Please join us in an open forum to discuss any questions you may have around;

- ✓ *cattle nutrition*
- ✓ *breeder/bull management*
- ✓ *bull selection.*

Désirée Jackson and Tim Emery will share their responses and be encouraging audience members to share their experiences throughout the day.

Désirée held a dual role as a scientist and extension officer with the Department of Agriculture, Longreach for over 20 years. Recently she has moved into full-time management consultancy which sees her now work across Qld and into the NT and WA. She has been heavily involved in the delivery of the Nutrition EDGE and Breeding EDGE workshop packages across Northern Australia for 15 years.

Tim has considerable experience and expertise in beef genetics, having been involved in the Beef CRC Champions Program as a “Genomics Champion” and more recently the Next Gen Beef Breeding Strategies Project and the current “Repronomics” Project being conducted with Brahman, Droughtmaster and Santa Gertrudis cattle.
